Introduction

Safeguarding determines the actions that we take to keep children safe and protect them from harm in all aspects of their school life. As a school we are committed to safeguarding and promoting the welfare of all of our pupils.

The actions that we take to prevent harm, to promote wellbeing, to create safe environments, to educate about rights, respect and responsibilities and to respond to specific issues and vulnerabilities all form part of the safeguarding responsibilities of the school. As such, this overarching policy links to other policies which will provide more information and greater detail.

This policy should be read in conjunction with:

Child Protection Policy

Keeping Children Safe in Education - Part 1

Safeguarding Policy

Code of Conduct

Online Safety Policy

Staff-(and-Volunteer)-Acceptable-Use Agreement

Behaviour Policy

Aims

- To provide staff with the framework to promote and safeguard the wellbeing of children and in so doing

Principles and Values

Safeguarding is everyone's responsibility. As such it does not rest solely with the Designated Safeguarding Lead (DSL) and their deputies to take a lead responsibility in all of the areas covered within this policy.

Some areas, such as Health and Safety, are a specialist area of Safeguarding and a separate lead for this area is in place in the school. The Senior member of staff with responsibility for this area is Mr Ian Pickles (School Business Manager).

Safeguarding processes are intended to put in place measures that minimise harm to children. There will be situations where gaps or deficiencies in the policies and

processes we have in place will be highlighted. In these situations a review will be carried out in order to identify learning and inform the policy, practice and culture of the school. Following a review process, any identified deficiencies will be immediately rectified.

All pupils in our school are able to talk to any member of staff to share concerns or talk about situations which are giving them worries. The staff will listen to the pupil, take their worries seriously and share the information with the safeguarding lead. In addition, we provide pupils with information of who they can talk to outside of school both within the community and with local or national organisations who can provide support or help.

As a school, we review this policy annually in line with DfE, HSCB, HCC and any other relevant guidance.

Date Approved by Governing Body: 4 October 2018

Areas of Safeguarding

Within Keeping Children Safe in Education (Sept 2018) and the Ofsted inspection guidance (2016) there are a number of safeguarding areas directly highlighted or implied within the text.

These areas of safeguarding have been separated into issues that are emerging or high risk issues (part 1); those related to the pupils as an individual (part 2); other safeguarding issues affecting pupils (part 3); and those related to the running of the school (part 4).

Definitions

Within this document:

'**Safeguarding**' is defined in the Children Act 2004 as protecting from maltreatment; preventing impairment of health and development; ensuring that children grow up with the provision of safe and effective care; and work in a way that gives the best life chances and transition to adulthood. Our safeguarding practice applies to every child.

The term **Staff** applies to all those working for or on behalf of the school, full time or part time, in either a paid or voluntary capacity. This also includes parents and Governors.

Child refers to all young people who have not yet reached their 18th birthday. On the whole, this will apply to pupils of our school; however the policy will extend to visiting children and students from other establishments

Parent refers to birth parents and other adults in a parenting role for example adoptive parents, guardians, step parents and foster carers.

Key Personnel

The Designated Safeguarding Lead for the school is **Mrs Fiona Allison (Assistant Headteacher)**.

The Deputy Designated Safeguarding Lead is **Mrs Jane Berridge (Guidance Manager)**

Other safeguarding trained members of staff are:

Mr Robert Jeckells (Deputy Headteacher)

Mr Matthew Leeming (Headteacher)

Miss Sarah Clarkson (Head of Year)

Mr Stuart Simpson (Head of Year)

Mr Andrew Chainey (Head of Year)

Mr Matthew Gunning (Head of Year)

Mr Christopher Marwood (Head of Year)

Part 1 – High risk and emerging safeguarding issues

Contextual Safeguarding

In KCSiE 2018 the DfE refer to contextual safeguarding as a specific term that has come out of research from the University of Bedfordshire.

The definition of Contextual Safeguarding is “an approach to understanding, and responding to, young people’s experiences of significant harm beyond their families. It recognises that the different relationships that young people form in their neighbourhoods, schools and online can feature violence and abuse. Parents and carers have little influence over these contexts, and young people’s experiences of extra-familial abuse can undermine parent-child relationships. Therefore children’s social care practitioners need to engage with individuals and sectors who do have influence over/within extra- familial contexts, and recognise that assessment of, and intervention with, these spaces are a critical part of safeguarding practices. Contextual Safeguarding, therefore, expands the objectives of child protection systems in recognition that young people are vulnerable to abuse in a range of social contexts.”

For us as a school, we will consider the various factors that have an interplay with the life of any pupil about whom we have concerns within the school and the level of influence that these factors have on their ability to be protected and remain free from harm particularly when it comes to child exploitation or criminal activity.

While this term applies to this specific definition, the notion of considering a child within a specific context is also important. What life is like for a child outside the school gates, within the home, within the family and within the community are key considerations when the DSL is looking at any concerns.

Preventing Radicalisation and Extremism

www.gov.uk/government/publications/protecting-children-from-radicalisation-the-prevent-duty

http://4lscb.proceduresonline.com/chapters/p_child_subject_violent_extremism.html

<http://www.hampshire.police.uk/internet/advice-and-information/safe4me/Safe4me+Prevent>

The Prevent Duty requires that all staff are aware of the signs that a child maybe vulnerable to radicalisation. The risks will need to be considered for political; environmental; animal rights; or faith based extremism that may lead to a child becoming radicalised. All staff have received awareness training in order that they can identify the signs of children being radicalised.

As part of the preventative process, resilience to radicalisation will be built through the promotion of fundamental British values through the curriculum.

Any child who is considered vulnerable to radicalisation will be referred by the DSL to Hampshire Children’s Services, where the concerns will be considered in the MASH process. If the police Prevent Officer considers the information to be indicating a level of risk a “Channel Panel” will be convened and the school will attend and support this process.

Gender-based violence / Violence against women and girls

<https://www.gov.uk/government/policies/violence-against-women-and-girls>

The government have a strategy looking at specific issues that women and girls face. Within the context of this safeguarding policy the following sections are how we respond to violence against girls. Female genital mutilation, forced marriage, honour based violence and teenage relationship abuse all fall under this strategy.

Female Genital Mutilation (FGM)

www.gov.uk/government/publications/mandatory-reporting-of-female-genital-mutilation-procedural-information

<https://www.gov.uk/government/publications/multi-agency-statutory-guidance-on-female-genital-mutilation>

http://4lscb.proceduresonline.com/chapters/p_fem_gen_mut.html

FGM comprises all procedures involving partial or total removal of the external female genitalia or other injury to the female genital organs for non-medical reasons. It has no health benefits and harms girls and women in many ways. It involves removing and damaging healthy and normal female genital tissue, and hence interferes with the natural function of girls' and women's bodies.

FGM is illegal in the UK.

The age at which girls undergo FGM varies enormously according to community.

The procedure may be carried out when the girl is newborn, during childhood or adolescence, just before marriage or during the first pregnancy. However, the majority of cases of FGM are thought to take place between the ages of 5 and 8 and therefore girls within that age bracket are at a higher risk.

On the 31 October 2015, it became mandatory for teachers to report "known" cases of FGM to the police. 'Known' cases are those where either a girl informs the person that an act of FGM – however described – has been carried out on her, or where the person observes physical signs on a girl appearing to show that an act of FGM has been carried out and the person has no reason to believe that the act was, or was part of, a surgical operation within section 1(2)(a) or (b) of the FGM Act. **At no time will staff examine pupils to confirm this.**

The law says that if a teacher discovers that FGM has taken place then they **MUST** report it to the Police directly. It is an offence for the teacher not to do so.

In our school, the matter **MUST** be reported to the DSL and the Headteacher and then **also** reported to the Police.

For cases where it is believed that a girl may be vulnerable to FGM or there is a concern that she may be about to be genitally mutilated the staff will inform the DSL who will report it as with any other child protection concern.

While FGM has a specific definition, there are other abusive cultural practices which can be considered harmful to women and girls. Breast ironing is one of five UN defined 'forgotten crimes against women'. It is a practice whereby the breasts of girls typically aged 8-16 are pounded using tools such as spatulas, grinding stones, hot stones, and hammers to delay the appearance of puberty. This practice is considered to be abusive and should be referred to children's social care.

Forced Marriage

[www.gov.uk/government/uploads/system/uploads/attachment_data/file/322307/HMG MULTI AGENCY PRACTICE GUIDELINES v1 180614 FINAL.pdf](http://www.gov.uk/government/uploads/system/uploads/attachment_data/file/322307/HMG_MULTI_AGENCY_PRACTICE_GUIDELINES_v1_180614_FINAL.pdf)
http://4lscb.proceduresonline.com/chapters/p_forced_marriage.html

In the case of children: *'a forced marriage is a marriage in which one or both spouses cannot consent to the marriage and duress is involved. Duress can include physical, psychological, financial, sexual and emotional pressure.'* In developing countries 11% of girls are married before the age of 15. One in 3 victims of forced marriage in the U.K. are under 18.

It is important that all members of staff recognise the presenting symptoms, how to respond if there are concerns and where to turn for advice.

Advice and help can be obtained nationally through the Forced Marriage Unit and locally through the local police safeguarding team or children's social care. Policies and practices in this school reflect the fact that while all members of staff, including teachers, have important responsibilities with regard to pupils who may be at risk of forced marriage, teachers and school leaders should not undertake roles in this regard that are most appropriately discharged by other children's services professionals such as police officers or social workers.

Characteristics that may indicate forced marriage

While individual cases of forced marriage, and attempted forced marriage, are often very particular, they are likely to share a number of common and important characteristics, including:

- an extended absence from school/college, including truancy;
- a drop in performance or sudden signs of low motivation;
- excessive parental restriction and control of movements;
- a history of siblings leaving education to marry early;
- poor performance, parental control of income and students being allowed only limited career choices;
- evidence of self-harm, treatment for depression, attempted suicide, social isolation, eating disorders or substance abuse; and/or
- evidence of family disputes/conflict, domestic violence/abuse or running away from home.

On their own, these characteristics may not indicate forced marriage. However, it is important to be satisfied that where these behaviours occur, they are not linked to forced marriage. It is also important to avoid making assumptions about an individual pupil's circumstances or act on the basis of stereotyping. For example, an extended holiday may be taken for entirely legitimate reasons and may not necessarily represent a pretext for forced marriage.

Honour Based Violence

<http://www.hampshire.police.uk/internet/advice-and-information/abuse-against-the-person/honour-based-violence>

http://4lscb.proceduresonline.com/chapters/p_hon_based_vio.html

Honour based violence is a violent crime or incident which may have been committed to protect or defend the honour of the family or community.

It is often linked to family or community members who believe someone has brought shame to their family or community by doing something that is not in keeping with their unwritten rule of conduct. For example, honour based violence might be committed against people who:

- become involved with a boyfriend or girlfriend from a different culture or religion
- want to get out of an arranged marriage
- want to get out of a forced marriage
- wear clothes or take part in activities that might not be considered traditional within a particular culture
- convert to a different faith from the family

Women and girls are the most common victims of honour based violence, however, it can also affect men and boys. Crimes of 'honour' do not always include violence. Crimes committed in the name of 'honour' might include:

- domestic abuse
- threats of violence
- sexual or psychological abuse
- forced marriage
- being held against your will or taken somewhere you don't want to go
- assault

If staff believe that a pupil is at risk from honour based violence, the DSL will follow the usual safeguarding referral process, however, if it is clear that a crime has been committed or the pupil is at immediate risk the police will be contacted in the first place. It is important that if honour based violence is known or suspected that communities and family members are NOT spoken to prior to referral to the police or social care as this could increase risk to the child.

Teenage Relationship Abuse

<https://www.gov.uk/government/publications/this-is-abuse-summary-report>

<http://www.hampshire.police.uk/internet/advice-and-information/safe4me/healthy-relationships>

<http://www.hampshire.police.uk/internet/advice-and-information/safe4me/healthy-relationships>

<https://www.gov.uk/government/publications/statutory-guidance-framework-controlling-or-coercive-behaviour-in-an-intimate-or-family-relationship>

Research has shown that some teenagers did not understand what constituted abusive behaviours such as controlling behaviours, which could escalate to physical abuse, e.g.

checking someone's phone, telling them what to wear, who they can/can't see or speak to and that this abuse was prevalent within teen relationships. Further research showed that teenagers did not understand what consent meant within their relationships. They often held the misconception that rape could only be committed by 'a stranger down a dark alley' and didn't understand that it could happen within their own relationships.

This led to these abusive behaviours feeling 'normal' and therefore left unchallenged as they were not recognised as being abusive.

In response to this, the school will provide education to prevent teenagers from becoming victims and perpetrators of abusive relationships by encouraging them to rethink their views of violence, abuse and controlling behaviours, and understand what consent means within their relationships. These issues will be addressed via the Kings' School PSHEE curriculum.

Sexual Violence and Sexual Harassment Between Children

Sexual violence and sexual harassment can occur between two children of any age and sex. It can also occur through a group of children sexually assaulting or sexually harassing a single child or group of children.

Within our school all staff are made aware of what sexual violence and sexual harassment might look like and what to do if they have a concern or receive a report. Whilst any report of sexual violence or sexual harassment should be taken seriously, staff are aware it is more likely that girls will be the victims of sexual violence and sexual harassment and more likely it will be perpetrated by boys.

As a school we are clear that sexual violence and sexual harassment is not acceptable, will never be tolerated and is not an inevitable part of growing up. It cannot be described as 'banter', 'having a laugh' or 'boys being boys'.

We will also take seriously any sharing of sexual images (photos, pictures or drawings) and videos; sexual jokes, comments or taunting either in person or on social media; or on-line sexual harassment.

Within the Child Protection Policy, there is a clear procedure for how we deal with situations where sexual assaults or behaviour considered criminal between children has taken place.

As a school we will follow the "*Sexual violence and sexual harassment between children in schools and colleges*" advice provided by the DfE

We will challenge all contact behaviours that have a sexual nature to them such as pushing or rubbing against, grabbing bottoms, breasts or genitals, pinching or flicking bras, lifting skirts or pulling down trousers and impose appropriate levels of disciplinary action, to be clear that these behaviours are not tolerated or acceptable.

The Trigger Trio

The term 'Trigger Trio' has replaced the previous phrase 'Toxic Trio' which was used to describe the issues of domestic violence, mental ill-health and substance misuse which

have been identified as common features of families where harm to women and children has occurred.

The above are viewed as indicators of increased risk of harm to children and young people. In an analysis of Serious Cases Reviews undertaken by Ofsted in 2011, they found that in nearly 75% of these cases two or more of the issues were present.

These factors will have a contextual impact on the safeguarding of children and young people.

Domestic Abuse

<http://www.hampshire.police.uk/internet/advice-and-information/safe4me/secondary-domestic-abuse>

http://4lscb.proceduresonline.com/pdfs/pr_sg_chi_dom_abuse.pdf

http://4lscb.proceduresonline.com/chapters/p_dom_viol.html

<https://www.gov.uk/guidance/domestic-violence-and-abuse#domestic-abuse-and-young-people>

Domestic abuse is any incident or pattern of incidents of controlling, coercive or threatening behaviour, violence or abuse between those aged 16 or over who are or have been intimate partners or family members regardless of gender or sexuality. This can encompass, but is not limited to, the following types of abuse:

- Psychological
- Physical
- Sexual
- Financial
- Emotional

Controlling behaviour is a range of acts designed to make a person subordinate and/or dependent by isolating them from sources of support, exploiting their resources and capacities for personal gain, depriving them of the means needed for independence, resistance and escape and regulating their everyday behaviour.

Coercive behaviour is an act or a pattern of acts of assault, threats, humiliation and intimidation or other abuse that is used to harm, punish, or frighten their victim.

Research indicates that living within a home where domestic abuse takes place is harmful to children and can have a serious impact on their behaviour, wellbeing and understanding of what a normal relationship is.

Children witnessing domestic abuse is recognised as 'significant harm' in law. These children may become aggressive; display anti-social behaviours; suffer from depression or anxiety; or fail to reach their educational potential.

Indicators that a child is living within a relationship with domestic abuse include:

- withdrawn
- suddenly behaves differently
- anxious

- clingy
- depressed
- aggressive
- problems sleeping
- eating disorders
- wets the bed
- soils clothes
- takes risks
- misses school
- changes in eating habits
- obsessive behaviour
- nightmares
- drugs
- alcohol
- self-harm
- thoughts about suicide

These behaviours themselves do not indicate that a child is living with domestic abuse, but should be considered as indicators that this may be the case.

If staff believe that a child is living with domestic abuse, this will be reported to the designated safeguarding lead for referral to be considered to Children's Services.

Parental Mental Health

<https://www.gov.uk/government/publications/the-mental-health-strategy-for-england>
http://4lscb.proceduresonline.com/chapters/p_childatrisk_mhpar.html

The term "mental ill health" is used to cover a wide range of conditions, from eating disorders, mild depression and anxiety to psychotic illnesses such as schizophrenia or bipolar disorder. Parental mental illness does not necessarily have an adverse impact on a child's developmental needs, but it is essential to always assess its implications for each child in the family. It is essential that the diagnosis of a parent/carer's mental health is not seen as defining the level of risk. Similarly, the absence of a diagnosis does not equate to there being little or no risk.

For children the impact of parental mental health can include:

- The parent / carer's needs or illnesses taking precedence over the child's needs
- Child's physical and emotional needs neglected
- A child acting as a young carer for a parent or a sibling
- Child having restricted social and recreational activities
- Child finds it difficult to concentrate- impacting on educational achievement
- A child missing school regularly as (s)he is being kept home as a companion for a parent / carer
- Adopt paranoid or suspicious behaviour as they believe their parent's delusions.
- Witnessing self-harming behaviour and suicide attempts (including attempts that involve the child)
- Obsessional compulsive behaviours involving the child

If staff become aware of any of the above indicators, or others that suggest a child is suffering due to parental mental health, the information will be shared with the DSL to consider a referral to Children's Services.

Parental Substance Misuse

http://4lscb.proceduresonline.com/chapters/p_chil_drug_mis_par.html

Substance misuse applies to the misuse of alcohol as well as 'problem drug use', defined by the Advisory Council on the Misuse of Drugs as drug use which has: 'serious negative consequences of a physical, psychological, social and interpersonal, financial or legal nature for users and those around them.

Parental substance misuse of drugs or alcohol becomes relevant to child protection when substance misuse and personal circumstances indicate that their parenting capacity is likely to be seriously impaired or that undue caring responsibilities are likely to be falling on a child in the family.

For children the impact of parental substance misuse can include:

- Inadequate food, heat and clothing for children (family finances used to fund adult's dependency)
- Lack of engagement or interest from parents in their development, education or wellbeing
- Behavioural difficulties- inappropriate display of sexual and/or aggressive behaviour
- Bullying (including due to poor physical appearance)
- Isolation – finding it hard to socialise, make friends or invite them home
- Tiredness or lack of concentration
- Child talking of or bringing into school drugs or related paraphernalia
- Injuries /accidents (due to inadequate adult supervision)
- Taking on a caring role
- Continued poor academic performance including difficulties completing homework on time
- Poor attendance or late arrival

These behaviours themselves do not indicate that a child's parent is misusing substances, but should be considered as indicators that this may be the case.

If staff believe that a child is living with parental substance misuse, this will be reported to the designated safeguarding lead for referral to be considered for Children's Services.

Missing, Exploited and Trafficked Children (MET)

http://4lscb.proceduresonline.com/chapters/p_missing_exploit_traff.html

Within Hampshire, the acronym MET is used to identify all children who are missing; believed to be at risk of or being exploited; or who are at risk of or are being trafficked. Given the close links between all of these issues, there has been a considered response to join all three issues so that cross over of risk is not missed.

Children Missing from Education

http://4lscb.proceduresonline.com/chapters/p_child_miss_edu.html

<https://www.gov.uk/government/publications/school-attendance>

https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/395138/Child_ren_missing_education_Statutory_guidance_for_local_authorities.pdf

Patterns of children missing education can be an indicator of either abuse or safeguarding risks. A relatively short length of time a child is missing does not reduce risk of harm to that child, and all absence or non-attendance should be considered with other known factors or concerns.

DSLs and staff should consider:

Missing lessons: Are there patterns in the lessons that are being missed? Is this more than avoidance of a subject or a teacher? Does the child remain on the school site or are they absent from the site?

- Is the child being exploited during this time?
- Are they late because of a caring responsibility?
- Have they been directly or indirectly affected by substance misuse?
- Are other pupils routinely missing the same lessons, and does this raise other risks or concerns?
- Is the lesson being missed one that would cause bruising or injuries to become visible?
- Is the child being exploited during this time?

Single missing days: Is there a pattern in the day missed? Is it before or after the weekend suggesting the child is away from the area? Are there specific lessons or members of staff on these days? Is the parent informing the school of the absence on the day? Are missing days reported back to parents to confirm their awareness?

- Is the child being sexually exploited during this day?
- Do the parents appear to be aware and are they condoning the behaviour?
- Are the pupil's peers making comments or suggestions as to where the pupil is at?
- Can the parent be contacted and made aware?

Continuous missing days: Has the school been able to make contact with the parent? Is medical evidence being provided? Are siblings attending school (either our or local schools)?

- Did we have any concerns about radicalisation, FGM, forced marriage, honour based violence, sexual exploitation?
- Have we had any concerns about physical or sexual abuse?
- Does the parent have any known medical needs?
- Is the child safe?

The school will view absence as both a safeguarding issue and an educational outcomes issue. The school may take steps that could result in legal action for attendance, or a referral to Children's Services, or both.

Children Missing from Home or Care

<https://www.gov.uk/government/publications/children-who-run-away-or-go-missing-from-home-or-care>

<http://www.childrenssociety.org.uk/what-we-do/policy-and-lobbying/children-risk/runaways>

Children who run away from home or from care, provide a clear behavioural indication that they are either unhappy or do not feel safe in the place that they are living. Research shows that children run away from conflict or problems at home or school, neglect or abuse, or because children are being groomed by predatory individuals who seek to exploit them. Many run away on numerous occasions.

The association of chief police officers has provided the following definitions and guidance.

“Missing person is: ‘Anyone whose whereabouts cannot be established and where the circumstances are out of character or the context suggests the person may be the subject of crime or at risk of harm to themselves or another.’

An absent person is: ‘A person not at a place where they are expected or required to be.’

All cases classified as ‘missing’ by the police will receive an active police response – such as deployment of police officers to locate a child. Cases where the child was classified as ‘absent’ will be recorded by the police and risk assessed regularly but no active response will be deployed.

The absent case will be resolved when a young person returns or new information comes to light suggesting that he/she is at risk. In the latter instance, the case is upgraded to ‘missing’.

Within any case of children who are missing both push and pull factors will need to be considered.

Push factors include:

- Conflict with parents/carers
- Feeling powerless
- Being bullied/abused
- Being unhappy/not being listened to
- The Trigger Trio

Pull factors include:

- Wanting to be with family/friends
- Drugs, money and any exchangeable item
- Peer pressure
- For those who have been trafficked into the United Kingdom as unaccompanied asylum seeking children there will be pressure to make contact with their trafficker

As a school we will inform all parents of children who are absent (unless the parent has informed us).

If the parent is also unaware of the location of their child, and the definition of missing is met, we will either support the parent to/directly contact the police to inform them.

Child Sexual Exploitation (CSE)

<http://paceuk.info/>

http://4lscb.proceduresonline.com/chapters/p_sexual_exploit.html

Sexual exploitation of children is not limited by the age of consent and can occur up until the age of 18. CSE involves children being in situations, contexts or relationships where they (or a third person) receive 'something' as a result of them performing sexual activities. The something can include food, accommodation, drugs, alcohol, cigarettes, affection, gifts, or money.

Child sexual exploitation can happen via technology without the child's being aware; for example, being persuaded to post sexual images on the Internet/mobile phones without immediate payment or gain.

In all cases, those exploiting the child/young person have power over them by virtue of their age, gender, intellect, physical strength and/or economic or other resources.

Violence, coercion and intimidation are common, involvement in exploitative relationships being characterised in the main by the child or young person's limited availability of choice resulting from their social/economic and/or emotional vulnerability.

Indicators a child may be at risk of CSE include:

- going missing for periods of time or regularly coming home late;
- regularly missing school or education or not taking part in education;
- appearing with unexplained gifts or new possessions;
- associating with other young people involved in exploitation;
- having older boyfriends or girlfriends;
- suffering from sexually transmitted infections;
- mood swings or changes in emotional wellbeing;
- drug and alcohol misuse; and
- displaying inappropriate sexualised behaviour.

CSE can happen to a child of any age, gender, ability or social status. Often the victim of CSE is not aware that they are being exploited and do not see themselves as a victim.

As a school we educate all staff in the signs and indicators of sexual exploitation. We use the sexual exploitation risk assessment form ([SERAF](#)) and [associated guidance](#) to identify pupils who are at risk and the DSL will share this information as appropriate with Children's Services.

We recognise that we may have information or intelligence that could be used to both protect children and prevent risk. Any relevant information that we have will be shared on the community partnership information (CPI) form [Annex 3]

Child Criminal Exploitation (including county lines)

Child Criminal Exploitation is defined as:- *‘where an individual or group takes advantage of an imbalance of power to coerce, control, manipulate or deceive a child or young person under the age of 18 into any criminal activity (a) in exchange for something the victim needs or wants, and/or (b) for the financial or other advantage of the perpetrator or facilitator and/or (c) through violence or threat of violence. The victim may have been criminally exploited even if the activity appears consensual. Child Criminal Exploitation does not always involve physical contact, it can occur through the use of technology’*

The exploitation of children and young people for crime is not a new phenomenon as evidenced by Fagan’s gang in Charles Dickens book, Oliver Twist. Children under the age of criminal responsibility, or young people who have increased vulnerability due to push:pull factors who are manipulated, coerced or forced into criminal activity provide opportunity for criminals to distance themselves from crime.

A current trend in criminal exploitation of children and young people are ‘county lines’ which refer to a ‘phone line through which drug deals can be made. An order is placed on the number and typically a young person will deliver the drugs to the specified address and collect the money for the deal. These lines are owned and managed by organised crime gangs, often from larger cities, who are expanding their markets into rural areas.

Indicators that a child may be criminally exploited include:

- Increase in **Missing episodes** – particular key as children can be missing for days and drug run in other Counties
- Having unexplained amounts of money, **new high cost items** and multiple mobile phones
- Increased social media and phone/text use, almost always secretly
- **Older males** in particular seen to be hanging around and driving
- Having injuries that are unexplained and unwilling to be looked at
- Increase in **aggression, violence and fighting**
- Carrying **weapons** – knives, baseball bats, hammers, acid
- Travel receipts that are unexplained
- **Significant missing** from education and disengaging from previous positive peer groups
- Parent concerns and significant changes in behaviour that affect emotional wellbeing

We will treat any child who may be criminally exploited as a victim in the first instance and refer to children’s social care in the first instance. If a referral to the police is also required as crimes have been committed on the school premises, these will also be made.

Trafficked Children

http://4lscb.proceduresonline.com/chapters/p_safeg_traff_ch.htm

Human trafficking is defined by the UNHCR in respect of children as a process that is a combination of:

- Movement (including within the UK)
- Control, through harm / threat of harm or fraud
- For the purpose of exploitation

Any child transported for exploitative reasons is considered to be a trafficking victim. There is significant evidence that children (both of UK and other citizenship) are being trafficked internally within the UK and this is regarded as a more common form of trafficking in the UK.

There are a number of indicators which suggest that a child may have been trafficked into the UK, and may still be controlled by the traffickers or receiving adults. These are as follows:

- Shows signs of physical or sexual abuse, and/or has contracted a sexually transmitted infection or has an unwanted pregnancy;
- Has a history with missing links and unexplained moves;
- Is required to earn a minimum amount of money every day;
- Works in various locations;
- Has limited freedom of movement;
- Appears to be missing for periods;
- Is known to beg for money;
- Is being cared for by adult/s who are not their parents and the quality of the relationship between the child and their adult carers is not good;
- Is one among a number of unrelated children found at one address;
- Has not been registered with or attended a GP practice;
- Is excessively afraid of being deported.

For those children who are internally trafficked within the UK indicators include:

- Physical symptoms (bruising indicating either physical or sexual assault);
- Prevalence of a sexually transmitted infection or unwanted pregnancy;
- Reports from reliable sources suggesting the likelihood of involvement in sexual exploitation / the child has been seen in places known to be used for sexual exploitation;
- Evidence of drug, alcohol or substance misuse;
- Being in the community in clothing unusual for a child i.e. inappropriate for age, or borrowing clothing from older people
- Relationship with a significantly older partner;
- Accounts of social activities, expensive clothes, mobile phones or other possessions with no plausible explanation of the source of necessary funding;
- Persistently missing, staying out overnight or returning late with no plausible explanation;
- Returning after having been missing, looking well cared for despite having not been at home;
- Having keys to premises other than those known about;
- Low self- image, low self-esteem, self-harming behaviour including cutting, overdosing, eating disorder, promiscuity;
- Truancy / disengagement with education;
- Entering or leaving vehicles driven by unknown adults;
- Going missing and being found in areas where the child or young person has no known links; and/or
- Possible inappropriate use of the internet and forming on-line relationships, particularly with adults.

These behaviours themselves do not indicate that a child is being trafficked, but should be considered as indicators that this may be the case.

If staff believe that a child is being trafficked, this will be reported to the designated safeguarding lead for referral to be considered to Children's Services.

Technologies

http://4lscb.proceduresonline.com/chapters/p_ca_information.html

Technological hardware and software is developing continuously with an increase in functionality of devices that people use. The majority of children use online tools to communicate with others locally, nationally and internationally. Access to the Internet and other tools that technology provides is an invaluable way of finding, sharing and communicating information. While technology itself is not harmful, it can be used by others to make children vulnerable and to abuse them.

Online Safety and Social Media

<https://www.thinkuknow.co.uk/Teachers/>

<http://www.saferinternet.org.uk/>

<https://www.thinkuknow.co.uk/Teachers/Resources/>

<http://www.saferinternet.org.uk/search-results?keywords=social%20networking>

<http://www.childnet.com/search-results/?keywords=social%20networking>

<http://www.kidsmart.org.uk/socialnetworking/>

<http://www.lgfl.net/esafety/Pages/Primary-resource-matrix.aspx>

With the current speed of on-line change, some parents and carers have only a limited understanding of online risks and issues. Parents may underestimate how often their children come across potentially harmful and inappropriate material on the internet and may be unsure about how to respond. Some of the risks could be:

- unwanted contact
- grooming
- online bullying including sexting
- digital footprint

The school will therefore seek to provide information and awareness to both pupils and their parents through:

- Acceptable Use Agreements
- Curriculum activities involving raising awareness around staying safe online
- Information included in letters, newsletters, website and website links
- Parental information evenings
- National events and campaigns (such as Safer Internet Day)
- Building awareness around information that is held on relevant websites and/or publications

Cyberbullying

https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/374850/Cyberbullying_Advice_for_Headteachers_and_School_Staff_121114.pdf

<http://www.hampshire.police.uk/internet/asset/f0db2eea-0e3c-4fb4-b98c-e3fa681b860P/primary-social-networking-cyber-bullying>

Central to the School's anti-bullying policy are the principles that '*bullying is always unacceptable*' and that '*all pupils have a right not to be bullied*'.

The school also recognises that it must take note of bullying perpetrated outside school which spills over into the school and so we will respond to any cyber-bullying we become aware of carried out by pupils when they are away from the site.

Cyber-bullying is defined as "an aggressive, intentional act carried out by a group or individual using electronic forms of contact repeatedly over time against a victim who cannot easily defend himself/herself."

By cyber-bullying, we mean bullying by electronic media:

- Bullying by texts or messages or calls on mobile phones
- The use of mobile phone cameras to cause distress, fear or humiliation
- Posting threatening, abusive, defamatory or humiliating material on websites, to include blogs, personal websites, social networking sites
- Using e-mail to message others
- Hijacking/cloning e-mail accounts
- Making threatening, abusive, defamatory or humiliating remarks in on-line forums

Cyber-bullying may be at a level where it is criminal in character.

It is unlawful to disseminate defamatory information in any media including internet sites. Section 127 of the Communications Act 2003 makes it an offence to send, by public means of a public electronic communications network, a message or other matter that is grossly offensive or one of an indecent, obscene or menacing character.

The Protection from Harassment Act 1997 makes it an offence to knowingly pursue any course of conduct amounting to harassment.

If we become aware of any incidents of cyberbullying, we will need to consider each case individually as to any criminal act that may have been committed. The school will pass on information to the police if it feels that it is appropriate or are required to do so.

Sexting

<https://www.thinkuknow.co.uk/Teachers/Resources/>

<http://www.hampshire.police.uk/internet/advice-and-information/safe4me/Safe4me+%27Sexting%27>

<https://www.ceop.police.uk/Media-Centre/Press-releases/2009/What-does-sexting-mean/>

'Sexting' often refers to the sharing of naked or 'nude' pictures or video through mobile phones and the internet. It also includes underwear shots, sexual poses and explicit text messaging.

While sexting often takes place in a consensual relationship between two young people, the use of Sexted images in revenge following a relationship breakdown is becoming more commonplace. Sexting can also be used as a form of sexual exploitation and take place between strangers.

As the average age of receipt of first smartphone or camera enabled tablet is 6 years old, sexting is an issue that requires awareness raising across all ages.

The school will use age appropriate educational material to raise awareness, to promote safety and deal with pressure. Parents should be aware that they can come to the school for advice.

Gaming

<http://www.saferinternet.org.uk/search-results?keywords=gaming>

<http://www.childnet.com/search-results/?keywords=gaming>

<http://www.kidsmart.org.uk/games/>

<http://www.lgfl.net/esafety/Pages/Primary-resource-matrix.aspx>

Online gaming is an activity that the majority of children and many adults get involved in. The school will raise awareness:

- By making information available to parents via information evenings and the website
- By educating children about the games they play and whether they are appropriate
- By supporting parents in identifying appropriate and effective ways of safeguarding their children by using parental controls and child safety modes
- By educating parents about setting boundaries and time limits when games are played
- By highlighting relevant resources and signposting to relevant websites and other sources of information

Online Reputation

<http://www.childnet.com/resources/online-reputation-checklist>

<http://www.saferinternet.org.uk/search-results?keywords=online%20reputation>

<http://www.kidsmart.org.uk/digitalfootprints/>

Online reputation is the opinion others get of a person when they encounter them online. It is formed by posts, photos that have been uploaded and comments made by others on people's profiles. It is important that children and staff are aware that anything that is posted could influence their future professional reputation. The majority of organisations and work establishments now check digital footprint before considering applications for positions or places on courses.

Grooming

<http://www.saferinternet.org.uk/search-results?keywords=grooming>

<http://www.childnet.com/search-results/?keywords=grooming>

<http://www.internetmatters.org/issues/online-grooming/>

Online grooming is the process by which one person with an inappropriate sexual interest in children will approach a child online, with the intention of developing a relationship with that child, to be able to meet them in person and intentionally cause harm.

The school will build awareness amongst children and parents about ensuring that the child:

- Only has friends online that they know in real life
- Is aware that if they communicate with somebody that they have met online, that relationship should stay online

That parents should:

- Recognise the signs of grooming
- Have regular conversations with their children about online activity and how to stay safe online

The school will raise awareness by:

- Running information evenings for parents
- Include awareness around grooming as part of their curriculum
- Identifying with parents and children how they can be safeguarded against the threat of online grooming

Homelessness.

As a school we recognise that being homeless or being at risk of becoming homeless presents a real risk to a child's welfare. The impact of losing a place of safety and security can affect a child's behaviour and attachments.

In line with the Homelessness Reduction Act 2017 this school will promote links into the Local Housing Authority for the parent or care giver in order to raise/progress concerns at the earliest opportunity.

We recognise that whilst referrals and/or discussion with the Local Housing Authority should be progressed as appropriate, this does not, and should not, replace a referral into children's social care where a child has been harmed or is at risk of harm.

Children & the Court System

As a school we recognise that children are sometimes required to give evidence in criminal courts, either for crimes committed against them or for crimes they have witnessed. We know that this can be a stressful experience and therefore the school will aim to support children through this process.

Along with pastoral support, the school will use age-appropriate materials published by HM Courts and Tribunals Services (2017) that explain to children what it means to be a witness, how to give evidence and the help they can access.

We recognise that making child arrangements via the family courts following separation can be stressful and entrench conflict in families. This can be stressful for children. This school will support children going through this process.

Alongside pastoral support this school will use online materials published by The Ministry of Justice (2018) which offers children information & advice on the dispute resolution service.

These materials will also be offered to parents and carers if appropriate.

Children with family members in prison

Children who have a family member in prison are at greater risk of poor outcomes including poverty, stigma, isolation and poor mental health.

This school aims to:-

- Understand and Respect the Child's Wishes
We will respect the child's wishes about sharing information. If other children become aware the school will be vigilante to potential bullying or harassment
- Keep as Much Contact as Possible with the Parent and Caregiver

We will maintain good links with the remaining caregiver in order to foresee and manage any developing problems. Following discussion we will develop appropriate systems for keeping the imprisoned caregiver updates about their child's education.

- Be Sensitive in Lessons

This school will consider the needs of any child with an imprisoned parent during lesson planning.

- Provide Extra Support

We recognise that having a parent in prison can attach a real stigma to a child, particularly if the crime is known and particularly serious. We will provide support and mentoring to help a child work through their feelings on the issue.

Alongside pastoral care the school will use the resources provided by the National Information Centre on Children of Offender in order to support and mentor children in these circumstances.

Pupils with Medical Conditions (In School).

www.gov.uk/government/publications/supporting-pupils-at-school-with-medical-conditions--3

There is a separate policy outlining the school's position on this.

As a school, we will make sure that sufficient staff are trained to support any pupil with a medical condition.

All relevant staff will be made aware of the condition to support the child and be aware of medical needs and risks to the child.

An individual healthcare plan may be put in place to support the child and their medical needs.

Pupils with Medical Conditions (Out of School).

www3.hants.gov.uk/education/parents-info/inclusion-service.htm

There will be occasions when children are temporarily unable to attend our school on a full time basis because of their medical needs. These children and young people are likely to be:

- children and young people suffering from long-term illnesses
- children and young people with long-term post-operative or post-injury recovery periods
- children and young people with long-term mental health problems (emotionally vulnerable)

Where it is clear that an absence will be for more than 15 continuous school days the Education and Inclusion Service will be contacted to support with the pupil's education.

Intimate Care

http://4lscb.proceduresonline.com/chapters/g_int_care.html

See Guidelines for good practice Annex 1 (adapted from the Chailey Heritage Centre)

Fabricated or Induced Illness

https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/277314/Safe_guarding_Children_in_whom_illness_is_fabricated_or_induced.pdf
http://4lscb.proceduresonline.com/chapters/p_fab_ind_ill.html

There are three main ways that a carer could fabricate or induce illness in a child. These are not mutually exclusive and include:

- fabrication of signs and symptoms. This may include fabrication of past medical history;
- fabrication of signs and symptoms and falsification of hospital charts and records, and specimens of bodily fluids. This may also include falsification of letters and documents;
- induction of illness by a variety of means.

If we are concerned that a child may be suffering from fabricated or induced illness, we will follow the established procedures of the Hampshire Safeguarding Children Board.

Mental Health

https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/508847/Mental_Health_and_Behaviour_-_advice_for_Schools_160316.pdf
<http://www.youngminds.org.uk/>
<https://www.gov.uk/government/publications/the-mental-health-strategy-for-england>

Form tutors and class teachers see their pupils day in, day out. They know them well and are well placed to spot changes in behaviour that might indicate an emerging problem with the mental health and emotional wellbeing of pupils.

The balance between the risk and protective factors are most likely to be disrupted when difficult events happen in pupils' lives. These include:

- **loss or separation** – resulting from death, parental separation, divorce, hospitalisation, loss of friendships (especially in adolescence), family conflict or breakdown that results in the child having to live elsewhere, being taken into care or adopted;
- **life changes** – such as the birth of a sibling, moving house or changing schools or during transition from primary to secondary school, or secondary school to sixth form; and
- **traumatic events** such as abuse, domestic violence, bullying, violence, accidents, injuries or natural disaster.

When concerns are identified, school staff will provide opportunities for the child to talk or receive support within the school environment. Parents will be informed of the concerns and a shared way to support the child will be discussed.

Where the needs require additional professional support referrals will be made to the appropriate team or service with the parent's agreement (or child's if they are competent as per Fraser guidelines).

The school has a Positive Mental Health Policy, which can be found in the Handbook. It covers both pupils and adults.

Self-harm

Self-harm can affect a child of any age and from any background. It means deliberately mutilating or inflicting injury on one's body without suicidal intent, perhaps to relieve emotional stress. Importantly, it is NOT necessarily:

- Attention-seeking
- An attempt at suicide
- A fashion or trend
- A symptom of a mental illness or personality disorder

Self-harming is sometimes associated with depression, mood swings and and/or significant social or family changes (such as parents separating).

People who self-harm often go to great lengths to hide the evidence. The most common manifestation is the cutting of wrists and forearms; as such, making excuses to avoid revealing their arms (for instance, by refusing to change for PE) can be a warning sign.

School staff who suspect that a pupil is self-harming should inform one of the DSLs, or the pupil's Head of Year. If self-harm is actually witnessed or disclosed, staff should not be judgemental or visibly alarmed; they should reassure the pupil and tell them that they will inform the Welfare Team immediately. If the pupil is in immediate danger, staff should seek urgent medical help.

Part 3 – Other safeguarding issues impacting pupils

Bullying

http://4lscb.proceduresonline.com/chapters/p_bullying.html

<https://www.gov.uk/government/publications/preventing-and-tackling-bullying>

<http://www3.hants.gov.uk/childrens-services/childrenandyoungpeople/bullying.htm>

The school works to a separate bullying policy that can be found in the Policies section of the school website.

Prejudice Based Abuse

Prejudice based abuse or hate crime is any criminal offence which is perceived by the victim or any other person to be motivated by a hostility or prejudice based on a person's real or perceived:

- Disability
- Race
- Religion
- Gender identity
- Sexual orientation

Although this sort of crime is collectively known as 'Hate Crime', the offender doesn't have to go as far as being motivated by 'hate', they only have to exhibit 'hostility'.

This can be evidenced by:

- threatened or actual physical assault
- derogatory name calling, insults, for example racist jokes or homophobic language
- hate graffiti (e.g. on school furniture, walls or books)
- provocative behaviour e.g. wearing of badges or symbols belonging to known right wing, or extremist organisations
- distributing literature that may be offensive in relation to a protected characteristic
- verbal abuse
- inciting hatred or bullying against pupils who share a protected characteristic
- prejudiced or hostile comments in the course of discussions within lessons
- teasing in relation to any protected characteristic e.g. sexuality, language, religion or cultural background
- refusal to co-operate with others because of their protected characteristic, whether real or perceived
- expressions of prejudice calculated to offend or influence the behaviour of others
- attempts to recruit other pupils to organisations and groups that sanction violence, terrorism or hatred.

As a school we will respond by:

- Clearly identifying prejudice based incidents and hate crimes and monitor such incidents within school
- Taking preventative action to reduce the likelihood of such incidents occurring
- Recognising the wider implications of such incidents for the school and local community
- Providing reports of these incidents to the Governing Body where appropriate
- Ensuring that staff are familiar with formal procedures for recording and dealing with prejudice based incidents and hate crimes
- Dealing with the perpetrators of prejudice based abuse effectively
- Supporting the victims of prejudice based incidents and hate crimes
- Ensure that staff are familiar with a range of restorative practices to address bullying and prevent it happening again

Drugs and Substance Misuse

<https://www.gov.uk/government/publications/drugs-advice-for-schools>

<http://www3.hants.gov.uk/education/hias/drug-and-alcohol/resources-for-schools.htm>

Faith Abuse

<https://www.gov.uk/government/publications/national-action-plan-to-tackle-child-abuse-linked-to-faith-or-belief>

http://4lscb.proceduresonline.com/chapters/p_ca_religion.html

The number of known cases of child abuse linked to accusations of “possession” or “witchcraft” is small, but children involved can suffer damage to their physical and mental health, their capacity to learn, their ability to form relationships and to their self-esteem. Such abuse generally occurs when a carer views a child as being “different”, attributes this difference to the child being “possessed” or involved in “witchcraft” and attempts to exorcise him or her.

A child could be viewed as “different” for a variety of reasons such as, disobedience; independence; bed-wetting; nightmares; illness; or disability. There is often a weak bond of attachment between the carer and the child.

There are various social reasons that make a child more vulnerable to an accusation of “possession” or “witchcraft”. These include family stress and/or a change in the family structure.

The attempt to “exorcise” may involve severe beating, burning, starvation, cutting or stabbing and isolation, and usually occurs in the household where the child lives.

If the school become aware of a child who is being abused in this context, the DSL will follow the normal referral route in to Children’s Services.

Gangs and Youth Violence

https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/418131/Preventing_youth_violence_and_gang_involvement_v3_March2015.pdf

http://4lscb.proceduresonline.com/chapters/p_safeg_gang_activity.html

The vast majority of young people will not be affected by serious violence or gangs. However, where these problems do occur, even at low levels, there will almost certainly be a significant impact.

As a school we have a duty and a responsibility to protect our pupils. It is also well established that success in learning is one of the most powerful indicators in the prevention of youth crime. Dealing with violence also helps attainment. While pupils generally see educational establishments as safe places, even low levels of youth violence can have a disproportionate impact on any education.

As a school, we will:

- Develop skills and knowledge to resolve conflict as part of the curriculum
- Challenge aggressive behaviour in ways that prevent the recurrence of such behaviour
- Understand the risks for specific groups, including those that are gender based and target appropriate interventions
- Safeguard and specifically organise child protection when needed
- Make referrals to appropriate external agencies
- Carefully manage transitions between educational establishments (particularly into alternative educational provision)
- Work with local partners to prevent anti-social behaviour or crime

Private Fostering

<https://www.gov.uk/government/publications/children-act-1989-private-fostering>
<http://www3.hants.gov.uk/private-fostering>

Private fostering is an arrangement by a child's parents for their child (under 16 or 18 if disabled) to be cared for by another adult who is not closely related and is not a legal guardian with parental responsibility for 28 days or more.

It is not private fostering if the carer is a close relative to the child such as grandparent, brother, sister, uncle or aunt.

The Law requires that the carers and parents must notify the Children's Services department of any private fostering arrangement.

If the school becomes aware that a pupil is being privately fostered we will inform the Children's Services department and inform both the parents and carers that we have done so.

Parenting

All parents will struggle with the behaviour of their child(ren) at some point. This does not make them poor parents or generate safeguarding concerns. Rather it makes them human and provides them with opportunities to learn and develop new skills and approaches to deal with their child(ren).

Some children have medical conditions and/or needs e.g. Tourette's, some autistic linked conditions, ADHD; that have a direct impact on behaviour and can cause challenges for parents in dealing with behaviours. This does not highlight poor parenting either.

Parenting becomes a safeguarding concern when the repeated lack of supervision, boundaries, basic care or medical treatment places the child(ren) in situations of risk or harm.

In situations where parents struggle with tasks such as setting boundaries and providing appropriate supervision, timely interventions can make drastic changes to the wellbeing and life experiences of the child(ren) without the requirement for a social work assessment or plan being in place.

As a school we will support parents in understanding the parenting role and provide them with strategies to make a difference by:

- Providing details of community and school-based parenting courses

<http://www3.hants.gov.uk/childrens-services/familyinformationdirectory.htm>

- Linking to web based parenting resources eg.

<http://www.familylives.org.uk/>

- Referring to the schools home-school link worker/guidance team
- Discussing the issue with the parent and supporting them
 - Considering appropriate early help services
 -

Part 4 –Safeguarding processes

Safer Recruitment

www.gov.uk/government/publications/keeping-children-safe-in-education--2

The school operates a separate safer recruitment process as part of the school's Recruitment Policy. On all recruitment panels there is at least one member who has undertaken safer recruitment training.

The process checks the identity, criminal record (enhanced DBS), mental and physical capacity, right to work in the U.K., professional qualifications and seeks confirmation of the applicant's experience and history through references.

Staff Induction

The DSL or their deputy will provide all new staff with training to enable them to both fulfil their role and also to understand the child protection policy, the safeguarding policy, the staff behaviour policy/code of conduct, safe working practice document and part one of Keeping Children Safe in Education (Sept 2018).

This induction may be covered within the annual training cycle. If it falls outside of this cycle then it will be carried out separately during the initial induction period.

Health and Safety

www.gov.uk/government/publications/health-and-safety-advice-for-schools
<http://www.hse.gov.uk/services/education/>

The site, the equipment and the activities carried out as part of the curriculum are all required to comply with the Health and Safety at Work act 1974 and regulations made under the act.

All risks are carefully assessed and recorded plans of how to manage the risk are put in place. The plans always take a common sense and proportionate approach to allow activities to be safe rather than preventing them from taking place. The school has a Health and Safety policy which details the actions that we take in more detail.

Site Security

www.gov.uk/government/publications/school-security

We aim to provide a secure site, but recognise that the site is only as secure as the people who use it. Therefore all people on the site have to adhere to the rules which govern it. These are:

- Visitors and volunteers enter at the main reception and must sign in and must wear a visitors identity badge which includes a photograph
- Visitors and volunteers are identified by a visitor identity badge
- School Staff will challenge anyone on site not displaying a valid current visitor identity badge
- Children are only allowed home during the school day with adults/carers with parental responsibility or permission being given
- All children leaving or returning during the school day have to sign out and in, giving the reason for their absence from the school site. This should be done via the electronic signing in system located in the Main School Reception or by hand with one of the school Administration Staff in the Main School Office

Off Site Visits

www.hants.gov.uk/outdoor_education
www.hampshireoutdoors.com
<http://oeapng.info/evc/>

A particular strand of health and safety is looking at risks when undertaking off site visits. Some activities, especially those happening away from the school and residential visits, can involve higher levels of risk. If these are annual or infrequent activities, a review of an existing assessment may be all that is needed. If it is a new activity, a visit involving adventure activities, residential, overseas or an 'Open Country' visit, a specific assessment of significant risks must be carried out. The school has an Educational Visits Co-ordinator (EVC). The EVC is a member of the Senior Leadership Team and is Mr Richard James (Assistant Headteacher). He liaises with the local authority's outdoor education advisor and helps colleagues in schools to manage risks and support with off site visits and provides training in the management of groups during off site visits.

First Aid

www.gov.uk/government/publications/first-aid-in-schools

The school has a separate First Aid policy which is available on the shared T-Drive or on request for a paper copy from Pat Lewis in the Main School Office.

Physical Intervention (use of reasonable force)

<https://www.gov.uk/government/publications/use-of-reasonable-force-in-schools-guidelines-for-the-use-of-restrictive-physical-intervention-in-Hampshire-maintained-schools>

The school has a separate policy outlining how we will use physical intervention which is available on the shared T-Drive or on request for a paper copy from Pat Lewis in the Main School Office.

Taking and the Use and Storage of Images

<https://ico.org.uk/for-the-public/schools/photos>

As a school, we will seek consent from the parent of a pupil and from teachers and other adults before taking and publishing photographs or videos that contain images that are sufficiently detailed to identify the individual in school publications, printed media or on electronic publications.

We will not seek consent for photos where you would not be able to identify the individual.

We will seek consent for the period the pupil remains registered with us and, unless we have specific written permission we will remove photographs after a child (or teacher) appearing in them leaves the school or if consent is withdrawn.

Photographs will only be taken on school owned equipment and stored on the school network. No images of pupils will be taken or stored on privately owned equipment by members of staff. See Staff Code of Conduct.

Transporting Pupils

<http://documents.hants.gov.uk/education/LADOsafeguardingchildrenineducation2014templateletterforparent.doc>

On occasions, parents and volunteers support with the task of transporting children to visits and off-site activities arranged by the school. (This is in addition to any informal arrangements made directly between parents for after school clubs etc.)

In managing these arrangements, the school will put in place measures to ensure the safety and welfare of young people carried in parents' and volunteers' cars. This is based on guidance from the local authority and follows similar procedures for school staff using their cars on school business.

Where parents'/volunteers' cars are used on school activities, the school will notify parents/volunteers of their responsibilities for the safety of pupils, to maintain suitable insurance cover and to ensure their vehicle is roadworthy.

All parents/volunteers are therefore asked to complete and return the form attached as annex 3 to the school before they offer to use their car to help with transporting pupils.

Disqualification under the childcare act

The Childcare Act of 2006 was put in place to prevent adults who have been cautioned or convicted of a number of specific offences from working within childcare. Previously this disqualification also extended to risk by association of anyone living within the same household and required us to carry out a self disclosure process with staff.

The risk by association element of the Act has now been refocused by the DfE and no longer applies to school staff.

We will continue to check for disqualification under the Childcare Act as part of our safer recruitment processes for any offences committed by staff members or volunteers.

Whistleblowing

All staff and volunteers should feel able to raise concerns about poor or unsafe practice and potential failures in the school and know that such concerns will be taken seriously by the senior leadership team.

There is a separate whistleblowing policy in place at Kings' School.

Where a staff member feels unable to raise an issue with their employer or feels that their genuine concerns are not being addressed, other whistleblowing channels may be open to them:

General guidance can be found at Advice on whistleblowing
<https://www.gov.uk/whistleblowing>

The NSPCC whistleblowing helpline is available for staff who do not feel able to raise concerns regarding child protection failures internally. Staff can call 0800 028 0285 – line is available from 8:00 AM to 8:00 PM, Monday to Friday and email: help@nspcc.org.uk

Intimate Care

Guidelines for good practice adapted from the Chailey Heritage Centre

1. Treat every child with dignity and respect and ensure privacy appropriate to the child's age and the situation. Privacy is an important issue. Much intimate care is carried out by one staff member alone with one child. The 4 LSCBs (Local Safeguarding Children Boards) believe this practice should be actively supported unless the task requires two people. Having people working alone does increase the opportunity for possible abuse. However, this is balanced by the loss of privacy and lack of trust implied if two people have to be present - quite apart from the practical difficulties. It should also be noted that the presence of two people does not guarantee the safety of the child or young person - organised abuse by several perpetrators can, and does, take place. Therefore, staff should be supported in carrying out the intimate care of children alone unless the task requires the presence of two people. The 4LSCBs recognise that there are partner agencies that recommend two carers in specific circumstances. Where possible, the member of staff carrying out intimate care should be someone chosen by the child or young person. For older children it is preferable if the member of staff is the same gender as the young person. However, this is not always possible in practice. Agencies should consider the implications of using a single named member of staff for intimate care or a rota system in terms of risks of abuse.
2. Involve the child as far as possible in his or her own intimate care. Try to avoid doing things for a child that s/he can do alone, and if a child is able to help ensure that s/he

is given the chance to do so. This is as important for tasks such as removing underclothes as it is for washing the private parts of a child's body. Support children in doing all that they can themselves. If a child is fully dependent on you, talk with her or him about what you are doing and give choices where possible.

3. Be responsive to a child's reactions. It is appropriate to "check" your practice by asking the child - particularly a child you have not previously cared for - "Is it OK to do it this way?"; "Can you wash there?"; "How does mummy do that?". If a child expresses dislike of a certain person carrying out her or his intimate care, try and find out why. Conversely, if a child has a "grudge" against you or dislikes you for some reason, ensure your line manager is aware of this.
4. Make sure practice in intimate care is as consistent as possible. Line managers have a responsibility for ensuring their staff have a consistent approach. This does not mean that everyone has to do things in an identical fashion, but it is important that approaches to intimate care are not markedly different between individuals. For example, do you use a flannel to wash a child's private parts rather than bare hands? Do you pull back a child's foreskin as part of daily washing? Is care during menstruation consistent across different staff?
5. Never do something unless you know how to do it. If you are not sure how to do something, ask. If you need to be shown more than once, ask again. Certain intimate care or treatment procedures, such as rectal examinations, must only be carried out by nursing or medical staff. Other procedures, such as giving rectal valium, suppositories or intermittent catheterisation, must only be carried out by staff who have been formally trained and assessed as competent.
6. If you are concerned that during the intimate care of a child:
 - You accidentally hurt the child;
 - The child seems sore or unusually tender in the genital area;
 - The child appears to be sexually aroused by your actions;
 - The child misunderstands or misinterprets something;
 - The child has a very emotional reaction without apparent cause (sudden crying or shouting).

Report any such incident as soon as possible to another person working with you and make a brief written note of it. This is for two reasons: first, because some of these could be cause for concern, and secondly, because the child or another adult might possibly misconstrue something you have done.

7. Additionally, if you are a member of staff who has noticed that a child's demeanour has changed directly following intimate care, e.g. sudden distress or withdrawal, this should be noted in writing and discussed with your designated person for child protection.
8. Encourage the child to have a positive image of her or his own body. Confident, assertive children who feel their body belongs to them are less vulnerable to abuse.

As well as the basics like privacy, the approach you take to a child's intimate care can convey lots of messages about what her or his body is "worth". Your attitude to the child's intimate care is important. As far as appropriate and keeping in mind the child's age, routine care of a child should be enjoyable, relaxed and fun.

Intimate care is to some extent individually defined, and varies according to personal experience, cultural expectations and gender. The 4LSCBs recognise that children who experience intimate care may be more vulnerable to abuse:-

- Children with additional needs are sometimes taught to do as they are told to a greater degree than other children. This can continue into later years. Children who are dependent or over-protected may have fewer opportunities to take decisions for themselves and may have limited choices. The child may come to believe they are passive and powerless
- Increased numbers of adult carers may increase the vulnerability of the child, either by increasing the possibility of a carer harming them, or by adding to their sense of lack of attachment to a trusted adult
- Physical dependency in basic core needs, for example toileting, bathing, dressing, may increase the accessibility and opportunity for some carers to exploit being alone with and justify touching the child inappropriately
- Repeated "invasion" of body space for physical or medical care may result in the child feeling ownership of their bodies has been taken from them
- Children with additional needs can be isolated from knowledge and information about alternative sources of care and residence. This means, for example, that a child who is physically dependent on daily care may be more reluctant to disclose abuse, since they fear the loss of these needs being met. Their fear may also include who might replace their abusive carer

Community Partnership Information

Annex 2 – Community Partnership Information Form

Guidance

This form is for the sharing of non-urgent information by partner agencies that relates to the **Missing, Exploited and Trafficked** agenda and related issues, such as **Modern Slavery**. This form can also be used for information relating to **Community Cohesion** and related concerns such as; **Tensions, Political Unrest, Racial and Religious** issues, **Immigration, Asylum and Refugees**, and **Anti-Social Behaviour**. Information associated with **Organised Crime Group** activity, including rural, is also sought. This form is not a referral form, nor does it replace any pre-existing referral or notification mechanism. This information may be sanitised and used in subsequent partnership forums for the purposes of identifying and mitigating risk. Any questions or concerns regarding this form can be raised with your Police contact, or to FIB.

Completed forms should be sent electronically to **24/7-Intel@hampshire.pnn.police.uk**

Transporting of pupils by parents

Dear Parent / Volunteer

On occasions parents and volunteers are kind enough to help with the task of transporting children to visits and off-site activities arranged by the school. (This is in addition to any informal arrangements made directly between parents for after school clubs etc.) The school is very grateful for this help. In managing these arrangements the school would like to put in place sensible measures to ensure the safety and welfare of young people carried in parents and volunteers cars. This is based on guidance from the local authority and follows similar procedures for school staff using their cars on school business.

Where parents/volunteers cars are used on school activities the Head should notify parents/volunteers of their responsibilities for the safety of pupils, to maintain suitable insurance cover and to ensure their vehicle is roadworthy.

The Head or Party Leader will need to consider the suitability of parents or volunteers to carry young people in their car and whether vetting is necessary. It is advisable that parents or volunteers are not put in a position where they are alone with a young person.

All parents are therefore asked to complete and return the attached form to the school before they offer to use their car to help with transporting pupils.

This form will only need to be completed once for each driver. However, please inform the school if your circumstances change and you can no longer comply with these arrangements.

Many thanks, once again, to all parents and volunteers who have been able to help with the provision of transport. Naturally our primary concern is the safety and welfare of pupils. However, we also want to maintain a wide range of opportunities for young people to participate in off-site activities and visits.

Signed

Head Teacher

DECLARATION FORM

Safeguarding statement

At this school, we strongly recognise the need for vigilant awareness of safeguarding issues. It is important that all staff have appropriate training and induction so that they understand their roles and responsibilities and are confident about carrying them out. Staff, pupils, parents, volunteers and governors should feel secure that they could raise any issues or concerns about the safety or welfare of children and know that they will be listened to and taken seriously. This will be achieved by maintaining an ethos of safeguarding and promoting the welfare of children and young people and protecting staff. This is supported by clear behaviour, anti-bullying and child protection policies, appropriate induction and training, briefing and discussion of relevant issues and relevant learning in line with current legislation and guidelines.

The school may require parents or volunteers who have regular unsupervised access to young people to be checked through arrangements with the Disclosure and Barring Service.

All drivers must:

- Hold a valid driving licence for the type of vehicle being driven
- Be fit to drive
- Have no medical condition which affects their ability to drive
- Have a valid MOT for any vehicle older than 3 years old
- Ensure that any vehicle is roadworthy, including brakes, lights, tyres, bodywork, wipers, mirrors etc.
- Ensure that any vehicle used has current road tax
- Ensure that they adhere to the appropriate speed limit
- Ensure that all seat belts are working and worn by everybody in the vehicle

Insurance:

- Maintain valid insurance, as a minimum, for third part liability
- Check with their insurance company and inform them that the driver occasionally conveys children on school activities. (This is unlikely to affect the cost of your insurance premium.)

Safety:

- Be familiar with, and drive in accordance with, the Highway Code at all times
- Drive safely and observe the speed limit
- Before driving not to consume alcohol or drugs which may impair driving
- Ensure that all passengers wear seat belts as appropriate
- Use child proof locks on rear doors where necessary
- Child seats such as booster seats are to be used at all times according to the height and age of each child in the vehicle

I have read and understood the above requirements and agree to comply with them. I agree to inform the school if circumstances change and I can no longer comply with these arrangements.
